SUMMARY

I work currently as a Teacher Assistant for Persevere, a non-profit teaching coding skills to those justice-impacted. I am also a User Experience Designer and working on a professional certificate in AI Engineering. And my goal is to develop the coding skills to ultimately become a software engineer.

PROFESSIONAL EXPERIENCE

Persevere

Memphis, TN

Teaching Assistant

March 2021 – Present

- Assisted in helping students complete certifications using our curriculum freeCodeCamp.org in Responsive Web Design.
- Helped develop tests & quizzes for all curriculum from Responsive Web Design, JavaScript, and Data Structures & Algorithms, etc.
- Was responsible for organizing all material and creating Google classrooms & Slack channels for students in class.

Case Manager

October 2022 – January 2023

- Helped create documents for grant planning & learned how to use applications & programs such as Trello and Hubspot.
- Was tasked with creating spreadsheets and organizing different events surrounding fundraising and recruitment.

Mark H. Luttrell Transition Center

Memphis, TN

Residential Counselor Advisor

January 2020 – April 2021

- Assisted residents in making right choices and decisions while participating in the work release program at M.L.T.C.
- Maintained duties such as filing documents, cleaning common areas, restrooms, and sleeping quarters.

Cook II

September – December 2019

- Prepped, prepared meals for about three-hundred (300) residents at the main compound or facility for both breakfast and lunch.
- Maintained cleanliness of cooking areas at all times and even prepared for inspections, etc.

EDUCATION

Justice Through Code

New York, NY

Software Development Course

August 2023 - September 2023

- Took course called “Pathways to Tech ‘23” and learned the basics of Python 3.
- Learned about other things in free Coursera courses in Python 3 & using Generative AI.

Coursera
